stucchi e decori in

QUADRO TONDO

Dai nuova luce ai tuoi ambienti con i faretti "QUADROTONDO", realizzati in maniera artigianale questi manufatti rappresentano una valida alternativa all'utilizzo dei faretti tradizionali, creando design e stili unici, adattandosi perfettamente a qualsiasi ambiente classico o moderno. Vengono prodotti

faretti filo-muro "QUADROTONDO" risulta particolarmente semplice, consiste nel tracciare la superficie designata e realizzare un foro di 1 cm + largo rispetto alla dimensione del faretto, applicare uno strato di collante per stucchi lungo il bordo del faretto e in prossimità delle alette (regolabili per spessori da 10 a 15 mm), Alloggiare il faretto nella giusta posizione e fare asciugare. A collante asciutto, rasare e carteggiare al fine di ottenere una superficie idonea alle successive fasi di pitturazione.

manualmente uno per uno colando materia prima selezionata, (miscela di ceramica a freddo) in stampi di silicone, questo processo garantisce un prodotto finito resistente e perfetto esteticamente ad elevata resistenza termica, assenza di dilatazione ed elevata riflessione luminosa, decorabile con qualsiasi pittura per interni. Previa Esigenza del committente, realizziamo e progettiamo modelli (anche conto Terzi).

La LINEA Faretti QuadroTondo viene prodotta con

KOLAMIX

Kolamix é una miscela in polvere, per ottenere una malta extradura , ad effetto ceramico bianchissima ed extrafine, ottimale per la realizzazione di rilievi, figure e forme di qualsiasi tipo. Le caratteristiche peculiari sono: rapido indurimento (ca. 15-30 min), elevata durezza superficiale che consente la realizzazione di spessori sottili, un'elevata resistenza alla compressione;
